

IP 2905 is a synthetic silk-gloss print medium for P.O.S. as well as pop-up & roll-up displays. This material has been specifically designed for digital printing on large and wide-format inkjets and is suitable for printing with eco solvent and solvent inks as well as UV-cured inks.

IP 2905

IP 2905 is a new-generation synthetic, fire retardant material for a wide range of applications. Featuring excellent lay flat properties this material is the ideal choice for roll-up & pop-up displays and P.O.S. As IP 2905 is fully opaque it is suited for applications where a 100% blockout effect is needed. This semi-rigid material is printable on one side only. Laminate: Depending on the application.
